Four Evidences for Aliens and UFOs

In the book:

"Four Evidences for Aliens and UFOs in Earth's History"

I present the reader with Four sources of proof that Aliens and UFOs have been on the Earth for not only thousands, but millions of years.

The first source is about Giants existing on this Earth not only thousands, but millions of years ago. It was before humanity existed. Giant footprints have been found in stone in many cases which is strong evidence that Alien Giants existed back then who walked the Earth.

The second source is Objects which are in the wrong places and times. I've presented a group of them from my other books. My favorite example is the chariot wheel in the ceiling of a coal mine which must be millions of years old. Some intelligent being created it and again it was well before humanity existed.
The third piece of evidence has to do with stories from ancient documents like the Ramayana, or the Bible of stories which seem to be about aliens and spaceships as described by primitive peoples who had no knowledge of science and technology.

Lastly, I've collection pictures of various art. All the way from cave paintings, to oil paintings, frescoes, and even bah relief sculptures which show clear pictures of UFOs and aliens.

I hope you enjoy the evidence collected here and if you are already knowledgeable about this subject maybe you will see something new.

BOOK FOCUS

The History of Science Fiction & Fantasy

Whether you are new to Science Fiction or have been reading this genre for years, I hope you will have as much fun reading this book as I had writing it.

In this history I've tried to include the best known authors and their most famous and interesting works. Many of these stories are groundbreaking. Some launched new sub genres, and some talked about technology which is now real or being developed. I have read almost all of the novels mentioned here.

I've also summarized various great novels throughout this book. These are stories you will enjoy reading. They might be examples of the changing genres, or just really good yarns. There are a lot of stories I love in the sci fi and fantasy realm and I hope you like them too.

I've literally read thousands of science fiction and fantasy books over the years. Starting in the 1960s up until today. Some of the stories I've read have made significant marks on my life. My degree in engineering is also probably a result of my interests in science and technology from growing up reading the wonder the vastness of these stories. Here are many of the best books I've read and enjoyed.

A few of the first chapters include:

1.0 Introduction
2.1 Stories from Older Times
2.2 The Epic of Gilgamesh
2.3 The Odyssey By Homer
2.4 Beowolf An English Epic Poem
2.5 One Thousand and One Nights
2.6 Dante's Inferno By Dante Alighieri
2.7 The Tempest-By Shakespeare
2.8 Rip Van Winkle By Washington Irving
3.0 19th Century Authors

Spiritual Practice-Druid History, Mysticism, Rituals, Magic, and Prophecy

The history of the Druids has always fascinated me. My first interest was reading as a child about Merlin the Magician who was also a Druid.

Then I learned they were the ancient priests of the Celts and had a deep history in the British Isles. My family is also from Scotland and Northern Ireland so it makes me wonder if I have some Druidic ancestry too.

Recently I wrote a book about the Mythical people of Ireland and it also included materials about the Tuatha Da Dannan who in many mythical histories were also forerunners of the Druids.

Druids were also well known for their mystical prophecy and healing abilities. Being a student of the Paranormal and Spiritual this also holds a serious interest for me.

In this book we will go through my research on Druid history, festivals, rituals, herbs, alphabets, magic, and much more.

Some Druidic rituals and exercises are also included. In fact Druidism seems to be the source of many modern approaches to witchcraft and magic.
