Featured Story-Quantum Mechanics and AI

Intelligence is the most powerful force ever to emerge in the universe.

Today, intelligence is undergoing its most radical transformation since the emergence of the human mind.

Artificial intelligence has moved from theory into daily life. Algorithms now diagnose disease, generate art, predict markets, and converse with humans in natural language. Yet beneath these achievements lies a deeper truth: most contemporary AI remains constrained by the limits of classical computation. It excels at pattern recognition but struggles with genuine understanding, intuition, and creativity. It scales, but it does not truly think.

At the same time, a second revolution is quietly unfolding—one that challenges our deepest assumptions about computation itself. Quantum computing does not merely make calculations faster; it operates on principles fundamentally different from classical logic. Superposition, entanglement, and probabilistic collapse allow quantum systems to explore vast landscapes of possibilities simultaneously. These machines do not step through solutions one at a time—they sample reality in a way that resembles intuition more than calculation.

When artificial intelligence and quantum computing converge, intelligence itself changes form.

This book explores that convergence—and the consequences that follow.

Health & Wellness-Psychic Pets: How Animals See Beyond the Veil

We love our Pets but what they sense may be more mysterious than we can imagine.

This book is a journey into the mysterious partnership between animals and the unseen world. Together, we will explore:

- Animals as Earth's Early Warning System – stories and studies of pets predicting earthquakes, storms, and disasters before they strike.
- Guardians at the Threshold – how pets sense illness, death, and even spiritual transitions in the lives of their human companions.
- Ghost Watchers and Spirit Trackers – cases of animals reacting to apparitions and hauntings where humans report paranormal activity.
- Telepathy and the Human–Animal Bond – the evidence that animals communicate with us beyond words, and how to recognize it.

- Energy and the Aura – exploring how pets respond to our moods, health, and unseen energy fields.
- Mystery Beings and Psychic Animals in Folklore – from witches' familiars to sacred animal guardians, the myths that reflect deeper truths.
- Practical Work – exercises, journaling practices, and methods you can use to test and develop awareness with your own pets.

BOOK FOCUS

Book Focus- Four Evidences for Aliens and UFOs in Earth's History

In this book I present the reader with four sources of proof that Aliens and UFOs have been on the Earth for not only thousands, but millions of years.

The first source is about Giants existing on this Earth not only thousands, but millions of years ago. It was before humanity existed. Giant footprints have been found in stone in many cases which is strong evidence that Alien Giants existed back then who walked the Earth.

The second source is Objects which are in the wrong places and times. I've presented a group of them from my other books. My favorite example is the chariot wheel in the ceiling of a coal mine which must be millions of years old. Some intelligent being created it and again it was well before humanity existed.

The third piece of evidence has to do with stories from ancient documents like the Ramayana, or the Bible of stories which seem to be about aliens and spaceships as described by primitive peoples who had no knowledge of science and technology.

Lastly, I've collection pictures of various art. All the way from cave paintings, to oil paintings, frescoes, and even bah relief sculptures which show clear pictures of UFOs and aliens.

I hope you enjoy the evidence collected here and if you are already knowledgeable about this subject maybe you will see something new.

Training Courses-Aliens and UFO Technologies

Aliens & UFO Technologies: The Hidden Science of UFOs, Anti-Gravity & Secret Civilizations

Unlock the Technologies, Entities & Real-World Mechanisms Behind the UFO Phenomenon

The truth is far stranger than fiction.

From alleged anti-gravity platforms to underwater bases, from alien presence on Earth to clandestine craft — the evidence is deep, detailed and waiting to be examined.

This course gives you direct access to the underground science, secret technologies and extraterrestrial mechanics that mainstream discourse ignores.

If you are ready to move beyond the "UFO as curiosity" level and into serious investigation, technology insight and practical understanding, this training is for you.

 What You Will Discover

The engineering and physics of alien craft and anti-gravity platforms

Deep-dive into covert programs (e.g., TR-3B) and secret aerospace systems

Evidence for alien presence, intervention and technological exchange

Underwater sites, submerged bases and hidden infrastructures

How human and alien technologies interact (or may have merged)

Analytical frameworks to assess claims, evidence and patterns

Tools for your own investigation, content, research or teaching

By the end, you'll not only know the stories — you'll understand the mechanics, implications and possibilities of this phenomenon.

About My Organization…

MKEttingtonbooks.com consists of over 150 books written by me from my own experiences (mainly paranormal) and research.

My original content consists or books, training courses, and more. Formats include printed, Ebooks, Audiobooks, and more. The training courses are all online and multimedia.

As a retired Engineer, my goal is to provide an analytical analysis of many otherwise strange and unbelievable phenomena.

The more we learn, the stranger our world and universe turns out to be. We think we know a lot—but we really know nothing about the Reality we live in.
