November Book Spotlight One:

The Real Atlantis-In the Eye of the Sahara

There have been many books and movies about whether Atlantis really existed and where it was located. Now we have a new candidate location which meets the criteria established by Plato much better than any of the other candidates.

A location which is the exact same size as the fabled city and is located by more than one ancient source.

The story of the Eye of the Sahara is truly amazing and once you read it you will become convinced like I am of this logically being the real location of the mythical city of Atlantis.

Lots of history and related information in this study of where Atlantis was really located.

A few reasons why this area is the most likely structure for Atlantis:

1) The size of the structure is the same as Platos Writings
2) The location has two sources verifying it
3) The exit/entrance is in the south with Mountains to the north--like Plato's description
