The 10 Principles of Personal Longevity

"Thank yourself and others. Feel gratitude around you. You have the power to feel and express your love. You are love!"

The 10 Principles of Personal Longevity is The Result of Five Years of Research and Experience

In 2008 I published my first book on longevity titled "Physical Immortality: A History and How to Guide" which has been very successful and has sold all over the world. This book introduced the facts that there are many long lived people in the world, along with theory and practices about how you can extend your own life.

In the intervening years I've met a lot more people in the worldwide "Immortalist" community, learned much more about longevity, and had more experiences such as experiencing powerful "Unconditional Love".

This led me to formulate the 10 principles of personal longevity starting in the fall of 2012. These principles have now been introduced to the world and are achieving broad acceptance.

I strongly believe that these principles offer everyone a chance to implement a new holstic philsophy in their lives of :

Long Term Health, Greater Happiness, and Extended Longevity

The principles build on each other and we offer online training, in person training, and one on one consulting to help people implement then in their lives.

The 10 Principles of Personal Longevity are:

- The Reality of Long Lived People
- Defining Your Purpose in Life
- Enabling the Life Urge
- Your Spiritual Health
- Having Love in Your Heart
- Energy Body Health
- The Science of Longevity
- Physical Body Health
- Using your Intuition for Safety
- Implementation of these principles

BOOK FOCUS

The Encyclopedia of Out of Place Artifacts

Out of Place Artifacts is a fascinating subject. There are too many of these unusual objects for them to be fakes. I've already written several books on this subject including "Strange Objects Which Should Not Exist", "More Out of Place Objects", and "A 300 Million Year Old Civilization Existed on Earth".

In this book I've compiled everything I could find out about these unusual finds from my prior three books and additional research.

I've included all of this information except that specifically related to Aliens and UFOs since that information is in my books on those topics.

The information here is presented in five parts:

Part A: Objects Found in Historical Times
Part B: Very Ancient Objects to Millions of Years Old
Part C: A Civilization 300 Million Years Ago
Part D: Human Footprints in Rock
Part E: Objects of Undetermined Ages

I hope you find all of this information as interesting as I do since it changes our understanding of the history of our planet in incredible ways.
