An Example of Ball Lightning

"All About Ball Lightning"

Featured Story-Fighting a Real Ghost

One evening in October of 1975 a very scary event occurred which I would never forget.

On a Saturday night we took a compass, a camera with Infrared film, and a bottle of water—of a couple gallons-which Sam had treated psychically—saying that any entities found in the home would be drawn into it. Sam used a psychic technique called polarization. The ideas behind the equipment was to use the film to shoot any hot or cold spots in the house, and the compass to see if any magnetic fields changed. The plastic bottle of water was to later be measured by Nuclear Magnetic Resonance back at the University to see what could be learned from how it had been changed. (NMR is now used daily in medical scanning equipment.)

I drove the three of us to an old home in Albany, New York where we met the woman who owned it and spent a couple of hours taking pictures and feeling psychically for hot and cold spots with our hands. I thought it was all interesting but maybe we were just on a wild goose chase.

At one point Sam opened the bottle of water in the living room and said that he could sense different entities were being drawn into it. I thought that comment was ridiculous. After a couple of hours Sam declared the home was "Cleared" and we left. It was about midnight, but Sam wanted to stop to see his blind friend Carolyn. We took the bottle of water upstairs to Carolyn's apartment and had Pizza with her for another couple of hours. I gave the bottle of water to Sam who said he sensed lots of bubbles. Mark looked at the bottle and concurred. Then the three of us got back into my car and started heading back to school around 2AM on the freeway next to the Hudson River. It was about a twenty mile drive.

Half way back the car's engine died. It was an old Opel Manta and the gas gauge didn't work too well. I got out and said "I need to flag down a car to get gas". I did that and quickly got a ride to the nearest gas station. Getting enough fuel to get home I got a ride back to the car which was parked on the side of the freeway. When I got there Sam and Mark were all upset. They said "Rocks started flying against the car and we know there is some type of entity in the car with us." I thought this behavior was paranoid and I said "It's late and we are all tired so just calm down." But as I started driving again I could feel there was something in the air in the back seat looking over my shoulder. Sam and Mark were in the backseat holding the water bottle at this point. Sam and Mark kept talking crazy and claimed the "thing" was attacking them. I told them to relax-they would be home soon. I drove onto the bridge over the Hudson River and back into Troy then up the hill to the school. There was a modest rain falling as I drove up the hill.

Near the top of the hill it happened: I felt a conscious and evil invisible cloud surrounding my head and psychic fingers penetrating my brain like a knife. It felt like my mind was being raped. I screamed, almost lost control of the car and struggled to regain control of my mind and the car.

Sam and Mark were also yelling saying they were under attack too. I drove another mile on side streets then pulled over to the side of the road next to a storm drain.

Book Focus-Radionics and Life Force Technologies

Radionics is the term for machines which manipulate life forces. This is often for healing or increasing psychic perceptions.

The Author is an engineer and has many decades of experience with the paranormal and well as time learning and experimenting with radionics devices from the 1970s.

While radionics devices are often considered pseudoscience, those opinions don't take into account the sensitivities of individuals who have incredible paranormal and healing abilities.

In my first year of engineering school at Rensselaer Polytechnic Institute in Troy, New York I met a man who became my mentor in the Paranormal and other things too. This was in 1973.

I learned to meditate and how to open my crown chakra to take in vital forces which allowed me to do many things including healing others.

In addition I also met another middle aged guy at a Psychic Fair in Saratoga Springs, New York. He was a researcher in the arcane field of Kirlian Photography.

In this book the history of radionics is discussed, some of the major influencers on that history, how these devices are used for healing, and even some plans for building radionics devices.

My hope is that this book will give you a good grounding in radionics to learn to use it productively for your own efforts.

Training Focus-Modifying Reality

I've had many paranormal experiences in my life and some pretty cool spiritual enlightenment experiences too. This has given me a good understanding of the spiritual development process and the development of paranormal abilities as a side effect.

I'm also and Engineer with a lot of Physics mixed in to my education so I have a pretty good understanding of the conventional views of engineering and science as taught in our universities.

My fascination with the unusual and unknown also led me to write about off the wall subjects like the paranormal, time travel, and moving between dimensions. The research I did convinced me that these strange and weird phenomena do exist and are not fantasies.

All of these factors have led me to this book which has the goal of better understanding the Universe we live in, and how we can change the reality we live in through our willpower and beliefs.

My numerous experiences and research have led me to conclude that although we may think we live in a stable Universe—that is a big misunderstanding. The more I learn the more convinced I am that the Universe is much more complicated than we ever thought.

In this book I want to show you the reader that the stable reality we take for granted does not exist and we can manipulate many more things than we ever thought possible.

The more I learn, the more I realize that our Universe is a much more mysterious place than we ever thought.

Spiritual Practice- A Modern Man's Search for Truth

One of my favorite books is Siddhartha By Herman Hesse. It is the story tracing the life of a young man throughout his life until he is old and takes place a couple of thousand years ago in India. He has many different phases and events in his life where he learns about Spiritual Enlightenment as well as living a full life. How would this search for truth work out in today's world?

This book is the story of a modern man named Laoch who is driven to find truth in his life. He has a passion to know Spiritual truth and happiness too. His curiosity is a passion and he doesn't want to be held back by a conventional lifestyle or beliefs.

Life can be an exciting journey with many adventures along the way. He has many adventures in his process of discovery. The Journey can be more important than the destination.

Our lives are also combinations of the events we experience and the thoughts and meditations of our lives. We can't live on Earth and advance without experiencing life.

To some his life would have seemed conventional but to Laoch he has a fascinating life and it is full of incredible discoveries he makes spiritually, psychically, and physically.
