April Book Spotlight Two:

A Narrative of the Real Atlantis-26 mins

What if Atlantis was not a myth—but a real civilization, lost not to fantasy, but to catastrophe and time?

A Narrative of the Real Atlantis is a carefully crafted, immersive audio journey that takes you beyond speculation and into evidence-based exploration. Drawing from ancient records, modern satellite imagery, climate science, and geological research, this narration re-examines one of history's greatest mysteries through a clear, logical, and compelling lens.

Rather than repeating familiar legends, this audio connects the precise descriptions left by Plato with a remarkable real-world location—the Eye of the Sahara in North Africa. Through calm, authoritative storytelling, you are guided step-by-step through the historical sources, geographic details, and environmental conditions that strongly suggest Atlantis may have been hidden in plain sight for thousands of years.

This is not a dramatization.

It is a reasoned narrative designed to be listened to, reflected upon, and remembered.
